#### **FAQ**

How can I tell if a site or download link is safe? Any tips?

Check out the Booty Guard, our basic safety guide. You should also avoid using the sites / software we've listed as unsafe here. Still feel unsure? Feel free to reach out to us via

I don't know what seeding or insert another term means...

You will find almost all terms related to piracy and more in The Piracy Glossary. Didn't find what you're looking for or still confused? Reach out to us via Discord.

How can I download Photoshop / Adobe Products for free?

You can download pre-cracked Adobe products from M0nkrus by following this guide. Alternatively, you could patch them yourself by following these guides / 2.

• M0nkrus is a well-trusted and reputable source for Adobe software in the piracy community.

How can I download / activate Windows or Microsoft Office for free?

For Windows check out this section, and for Microsoft Office check out this guide.

Where can I find *insert game title / movie title*?

You can use WhereYouWatch for finding movies, and for new movies it's a good idea to keep an eye on r/movieleaks as well. You should also be able to find most movies you're looking for in the streaming section. For games, you can use Rezi or any other site listed here, and for newly released games check out r/crackwatch.

Pirated movie releases generally happen after a movie is digitally released or released via Blu-ray / DVD, which can take 3+ months after initially playing in theaters.

▲ Please avoid downloading games from any site listed here as they're very likely to contain malicious links.

How can I unlock insert random game title DLCs?

Use the tools listed here to unlock DLCs.

Should I install and use insert random antivirus software instead of using Windows Defender?

No, don't do that. Windows Defender is more than enough to keep you safe, but if you're still set on installing a secondary AV, the only one worth installing is Malwarebytes. Please read the note here.

▲ Stay away from Avast, Norton, and McAfee, as these are "bloatware" and generally unsafe software.

How can I bypass a paywalled article?

Use this / 2 to read the article easily.

How can I download an image from insert stock image site?

You can use this downloader, and if it doesn't work you can find other stock image downloaders here.

## **Windows Piracy**

Windows ISOs - Download Windows
Windows Activation - Activate Windows
Windows Piracy Guide - How to Pirate windows

### **Linux Piracy**

Linux Distros - Download Linux Distros
Linux Piracy / Linux Gaming Guide - Piracy Guide for Linux
Torrminatorr / Kapital Sin - Download Linux Games
TorrFlix - Torrent Streaming CLI
ani-cli - Anime Streaming Terminal

### **MacOS Piracy**

gibMacOS - Download macOS

Torrminatorr - Download macOS Games

qBittorrent - macOS Torrent Client

Homebrew / GUI - macOS Package Manager

SpotX Bash - macOS Spotify Adblocker

#### **Browser**

Firefox / Browser Comparisons - Normal Browsers

Privacy Browsers - Privacy-Focused Browsers

Browser Extensions / Userscripts - Add features & functionality to browsers

Dark Reader - Dark mode for all sites

ReturnYoutubeDislikes - View YouTube dislikes

#### **Adblocking**

uBlock Origin - The most popular (and best) adblocking extension
 SponsorBlock - Skip sponsored YouTube ads
 Spotify Adblockers - Block Spotify ads
 Twitch Adblockers - Block Twitch ads
 Redirect Skippers - Bypass redirect sites

Don't run multiple general adblockers like ublock and adblock plus at the same time. Running more than one can cause breakage. This only applies to general adblockers, so running things like ublock and sponsorblock at the same time is fine.

#### **Anti-virus**

VirusTotal / Kaspersky Cloud - Test the safety of files Guide for VirusTotal - Virus scan results guide Malwarebytes Premium - Antivirus software

Antivirus software is usually bloatware. Stick to trusted sources for games and software and you will be fine with nothing but Windows Defender and an occasional Malwarebytes scan. Remember to always scan software before installing it with tools like VirusTotal or use it in Sandboxie.

#### **Privacy**

**Privacy Guides** - Privacy guides

DuckDuckGo / Mojeek - Tracker-free web search

ProtonMail - Encrypted email service

Email Aliasing - Email alias forwarding

Aegis / Ente - 2FA to prevent logins without user authentication

Password Managers - Save multiple passwords

HavelBeenPwned - Get notified when your email or phone number has been found in a data breach

VPN List - VPN index

File Encryption Tools - File encryption apps / tools

Note that a VPN is not needed outside torrenting. You can avoid the need for one altogether by sticking to direct download and streaming sites.

## **Streaming**

Ionelil / Braflix / FMovies - Fast movie / TV streamingAniWatch / AniWave - Fast anime streamingDramacool - Fast Asian drama streaming

**SportsSurge** - Live sports streaming Spotify / YouTube Music - Music & podcast streaming / Spotify Adblock **Streaming CSE**, 2, 3, 4 - Multi-Site Search TV CSE - Multi-site TV search **Anime Streaming CSE / 2** - Multi-site anime search

#### **Downloading**

**LRepacks** or **CRACKSurl** - Trusted software sites

How-to Find Rare Movies - Find obscure films

OlaMovies - Fast video downloads

FitGirl Repacks / SteamRIP / GOG-Games - Game download sites / FitGirl Discord

Vimms Lair / No-Intro - ROM download sites / Emulators

Firehawk52 - Music ripping guide

Double - Multi-Site audio download

Free MP3 Download - MP3 / FLAC downloads

Soulseek or Nicotine+ - Audio download app

Download CSE / 2 - Multi-site download search

Video Download CSE / 2 / 3 - Multi-site video download search

**Anime Download CSE** - Multi-site anime download search

Game Download CSE - Multi-site game download search

Audio Download CSE / 2 / 3 - Multi-site audio download search

🚺 When using DDLs, it's generally recommended to use a download manager such as Internet Download Manager (IDM) or JDownloader, as they improve the ease of downloading along with the speed. You can find them listed here.

#### **Torrenting**

A Torrenting can get you in trouble with your ISP, so make sure to use a VPN. Most VPNs offer a killswitch to prevent data leaks, but you should also bind your VPN to your client, preventing it from connecting at all unless your VPN is on.

qBittorrent / Transmission / Deluge / Remote Torrenting - Torrent clients

RuTracker / Wiki / Rules - Torrent video, audio, games, software & more / Only download from reputable users

FitGirl Repacks - Trusted game repacker

Stremio - Torrent video streaming app

Nyaa - Anime Torrents

Torrent CSE / 2 - Multi-site torrent search

Video Torrent CSE - Multi-site video torrent search

**Anime Torrent CSE** - Multi-site anime torrent search

**Game Torrent CSE / 2** - Multi-site game torrent search

Audio Torrent CSE - Multi-site audio torrent search

#### Reading

Mobilism / Library Genesis / Z-Library / Annas Archive - Books, audiobooks, comics & more

Audiobook Bay - Audiobook torrents / Avoid fake DL links, use Torrents / Magnets

ReadComicsOnline - Read comics online

MangaReader - Read manga online

Reading CSE / 2 / 3 / 4 / 5 - Multi-site book search

Audiobook CSE - Multi-site audiobook search

Comic CSE - Multi-site comic search

Manga CSE / 2 - Multi-site manga search

Ebook Readers - List of ebook readers

#### **Mobile Piracy**

Android AdGuard Premium / iOS AdGuard Premium - Adblocking app

Android Modded Spotify / iOS Modded Spotify - Modded Spotify

Cromite / Firefox / Kiwi - Android web browsers

Brave - iOS web browser / Improve Safari

Mobilism - Modded APKs

/r/ApkApps Megathread - Updated list of modded APKs / Subreddit / Discord

**APKMirror** - Untouched APKs
